StepsWeb and the Australian National Literacy Learning Progressions

The online StepsWeb program and its supporting resources were developed to address key literacy skills and knowledge needed for both reading and writing.

StepsWeb is not intended to replace the broader English curriculum, but to develop core literacy skills and knowledge. Every activity is supported by research into literacy acquisition.

StepsWeb Levels:	A	B	C	D	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Reading and Viewing																				
Phonological Awareness	PhA1-2		PhA3-4		Ph5															
Phonic Knowledge & Word Recognition	PKW1-3		PKW4	PKW5-6		PKW7			PKW8							PKW9				
Fluency	FlY1-2				FlY3				FlY4		FlY5					FlY6				
Understanding Texts	Unt2-3		Unt4		Unt5		Unt6			Unt7-8						Unt9				
Writing																				
Creating Texts (Text Forms & Vocabulary)	CrT1-3				CrT4			CrT5-6								CrT7				
Grammar	GrA1-2				GrA3		GrA4							GrA5-6						
Punctuation	PuN1		PuN2-3			PuN4-5														
Spelling	SpG1-3		SpG4-6		SpG6-7		SpG8-9		SpG10-11				SpG12-14							
Handwriting & Keyboarding	HwK2	HwK3		HwK4																

🟣 = fully covered in StepsWeb   ⬤ = core literacy elements covered

Explainer: Some aspects above can be covered completely using the range of StepsWeb materials. An example is Phonological Awareness or Spelling. For others, such as Grammar, there are elements which address core literacy aspects, but not every subskill in this strand. These strands are designated with the diagonal line pattern.

Example: Punctuation includes full stops, capital letters, question marks, apostrophes. It doesn't explicitly cover more advanced aspects such as speech marks, although these will be seen in workbook texts.
