

Course Scope & Sequence

Phonic Content

Individual activities and resources on StepsWeb can be used to reinforce any research-based literacy approach. Teachers can create and customise their own chosen literacy progression and schools are able to build entire banks of resources specifically customised for their school. This Scope & Sequence document lays out the content of the literacy Course element only.

NOTE:

The progression includes plenty of revision of previously introduced patterns, as well as activities where the learner is required to choose the right option. These are not all detailed separately below.
